InnoMedia BuddyTalk BT110 Quick Installation Guide

1. **IMPORTANT.** Please view the BuddyTalk Setup App video for details on setting up the BT110 device:
https://buddytalk.com/bt110-deployment/#Setup_App#Setup_App

2. Before you start, please ensure you have:

- An Amazon account. Visit <https://alexa.amazon.com> to create an Amazon Account if you do not have one currently.
- SIP account credentials. These credentials can be obtained either from your VoIP service provider or your IT team, if you do not have them already.
- Mobile phone on the same WiFi network as the one the BuddyTalk device will use.

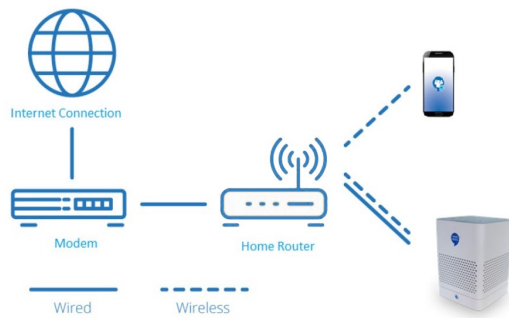

3. Download and install the InnoMedia **BuddyTalk Setup App** from the Google Play Store or the iOS App Store onto your mobile phone.

www.buddytalk.com

4. Power on the device and wait a minute or so until you see an orange rotating Ring LED on the device.
5. Use the BuddyTalk Setup App to guide you through the following three stages:
 - WiFi Setup *
 - Amazon Setup
 - SIP Telephony Setup

*If you would like to use Ethernet, connect the Ethernet cable (provided) to the WAN port of the device and the other end to your network router.

6. Once BuddyTalk setup is complete, you should be able to:

- Ask simple questions such as: “Alexa, what time is it?”
- Make calls: “Alexa, call [number]” or “Alexa, call [name]”
- Answer an incoming call: “Alexa, answer call”
- Hang up a call: “Alexa, hang up”
- Connect a POTS phone to the PHONE connector at the back of the unit and dial the number you wish to call.

7. For more details, please find a detailed BuddyTalk Setup Guide at:
